### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

1. This office action is in response to applicant's communication filed on 05/24/2006.

Claims 1-20 are pending.

2. The drawings filed on 3/26/2001 are accepted.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Nemirofsky et al. (U.S. Patent No. 5880769)

Re claims 1, 9 and 13: Nemirofsky teaches a method and a corresponding system and computer program product for updating client contact data for a user of one or more financial institutions, said method comprising: selecting one or more of the financial institutions, wherein the user has one or more financial accounts with each of the selected financial institutions (col.4, lines 50-55); retrieving access information corresponding to the selected financial institutions, wherein the access information is retrieved from a finance program data area on a client computer (col.4, lines 55-56); packaging the client contact data with data from the retrieved access information forming one or more client contact update requests (col.4, lines 59-61); and sending one of the

client contact update requests from the client computer to each of the selected financial institutions using data from the retrieved access information (col.4, lines 59-61).

Re claims 3, 10, and 15: Nemirofsky teaches that the client contact data includes at least one of a client name, a client address, a client phone number, a client facsimile number, and a client email address (col.4, lines 59-61).

Re claims 2, 8, 11, 14 and 20: Nemirofsky teaches the step of encrypting the packaged client contact data (Abstract; col. 5, lines 11-15).

Re claims 4 and 16: Nemirofsky teaches that the access information includes at least one of a user identifier, a password, and a financial computer electronic address (col.4, lines 54-55).

Re claims 5 and 17: Nemirofsky teaches that the packaging is performed in response to the user requesting that the client contact data be transmitted to one or more financial institutions (col. 5, lines 3-5).

Re claims 6, 12 and 18: Nemirofsky teaches the step of receiving one of the client contact update requests from the client computer, the received client contact update request being at a computer corresponding to one of the financial institutions; validating the client update request; and updating a nonvolatile storage area corresponding to the client based on the client contact data included in the client contact update request (col.4, lines 59-61).

Re claims 7 and 19: Nemirofsky teaches the step of sending a confirmation message to the client computer in response to the updating (col. 5, lines 9-11).

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kasower (U.S. Patent Application No. 20020128962) discloses card management system and method (see Figs. 29 and 30; Sections [0009], [0017] and [0019]).
